

## Protect Special Wage Provision 14c

### BE AWARE

- The Biden Administration's \$1.9T Stimulus proposal (Biden American Rescue Plan) includes a provision to eliminate the Special Minimum Wage (Section 14(c)) of the Fair Labor Standards Act.
- Congress and the Administration are currently negotiating proposed legislation in the hope of reaching bipartisan agreement.
- If agreement is not reached, Democratic legislators may try to pass a bill through a process called budget reconciliation, which would only require Democratic support and cannot be filibustered, which would make it very likely to pass.

### BE ADVISED

- If the Special Minimum Wage provision (14(c)) is eliminated, you or your loved one may lose the choice to work in a setting that uses this certificate.
- Most community rehabilitation programs utilize this important certificate to offer training/ work services.
